TOWN WARRANT

To the Inhabitants of the Town of Peterborough in the County
of Hillsborough in said State, Qualified to Vote in Town
Affairs:

You are hereby notified to meet at the Town House, in said Town, on Tuesday, the thirteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary for the maintenance of the poor, for the laying out and repairing of Highways, and all other charges arising within the Town and appropriate the same.
3. To raise and appropriate such sums of money as may be necessary for the support of the Fire Department, the Public Library, and for Memorial Day.
4. To see what sum of money the Town will vote to raise and appropriate towards paying the Town debt and interest.
5. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and to pass any vote relating thereto.
6. To see if the Town will vote to instruct the Selectmen to appoint a police officer, or as many as may be necessary, to preserve order in and about the public places of the town, and to perform other duties as may be required by the Selectmen both day and night, and raise and appropriate money for the same.
7. To see if the Town will vote to accept legacies and gifts given to the town in trust by any individual or individuals.
8. To see what sum of money, if any, the Town will vote to raise and appropriate to defray the expenses of Old Home Week.

9. To see what sum of money the Town will vote to raise and appropriate towards building the Contoocook Valley State Highway, and to accept Federal Aid.

10. To see if the Town will vote to raise and appropriate money for use on the Contoocook Valley Road in accordance with the provisions of Chapter 117, Laws of 1917.

11. To see if the Town will vote to purchase a truck for the Highway Department, and raise and appropriate money for the same.

12. To see what sum of money the Town will vote to raise and appropriate toward the repair of Sand Hill Road.

13. To see what sum of money the Town will vote to raise and appropriate towards the repair of the Harrisville Road.

14. To see what sum of money the Town will vote to raise and appropriate to be expended on the Old Dublin Road.

15. To see what sum of money the Town will vote to raise and appropriate towards repairs on Windy Row, so called.

16. To see what sum of money the Town will vote to raise and appropriate toward the construction of a gravel road on any portion of the Greenfield Road.

17. To see what action the Town will take in relation to preventing the spread of the disease commonly known as White Pine Blister Rust and raise and appropriate money for the same.

18. To see if the Town will vote to purchase a Motor Fire Pump for the Fire Department, and raise and appropriate money for the same, or take any other action relating thereto.

19. To see if the Town will extend the sidewalk on High Street to the junction of the two roads at the north end of the street, and raise and appropriate money for the same.

20. To see if the Town will vote to raise and appropriate the sum of one thousand dollars (\$1000.00) to continue building the cement sidewalk at West Peterborough, beginning at the east end of the present cement walk, going as far as the appropriation will permit, or take any other action relating thereto.

21. To see what action the Town will take in regard to widening Main Street at its junction with High and Union Streets, and raise and appropriate money for the same, or take any other action relating thereto.

22. To see if the Town will vote to accept the Hymn "1620" by Edward A. MacDowell, as a gift from Mrs. MacDowell, and to be called the "Peterborough Hymn" to be sung at each annual Town Meeting.

23. To see if the Town will vote to instruct the Water Commissioners to purchase a lot of land near the residence of the late James Green, Wilton Road, and erect a Chlorinating Plant, the expense to be paid from the income of the Water System, or raise and appropriate money for the same.

24. To see if the Town will vote to instruct the Water Commissioners to extend the Town Water System from Wilton Road near Bleak House corner to a point near the residence of Charles F. Batchelder, and raise and appropriate money for the same, or take any other action relating thereto.

25. To see if the Town will vote to raise and appropriate money for the erection of street lights in the following locations:

- (A) On Old Street Road opposite entrance to Hunt Place.
- (B) On Central Street opposite Tryon Place.
- (C) On MacDowell Road between junction of High Street and William Seccombe Estate.
- (D) On new Jaffrey Road to Noone's Mill.
- (E) On Grove Street at entrance to Putnam Park.
- (F) On Harrisville Road between watering trough at West Peterborough and Boarding House.

the location of the above lights to be determined by the Selectmen.

26. To see if the Town will vote to adopt a stop and go traffic control system at the following corners:

- Main Street at Depot and Summer Streets.
- Main Street at Grove Street.
- Grove Street at School Street.

To see if the Town will raise and appropriate money to install the same, or take any other action relating thereto.

27. To transact any other business that may legally come before said meeting.

Given under our hands and seal this Twenty-Fifth day of February, in the year of our Lord nineteen hundred and twenty-eight.

FRED J. AMES

ARTHUR P. SMITH

MARTIN J. KEENAN

Selectmen of Peterborough

Chief Engineer's Report

TO THE SELECTMEN OF PETERBOROUGH, N. H.:

Gentlemen:

As Chief of the Fire Department I wish to submit the following report for the year 1927.

The Department responded to 61 alarms or calls during the year, 53 still or telephone calls, 8 gong alarms, and one out of town call for help.

Beside responding to calls for help, the members of the two companies have had a number of practice drills, which not only give them practice, but help to keep the water pipes free from sediment.

I would call the attention of the property owners of allowing rubbish to accumulate in and around buildings. Make an extra trip to the dump where such stuff can be burned up in safety.

In storehouses, barns, factories, garages and all other places where the risk is great the No Smoking sign should be up and this rule should be enforced at all times.

As the season for cleaning your grounds up is approaching, I would say that you will have a better looking lawn if you do not burn it over, and if you want trees to live don't burn around them next to the bark. The heat pulls the bark from the wood and it is as bad as a circle cut around them.

I would once more ask the citizens to please observe the rule of the Road that gives the Fire apparatus the right of way when the alarm rings in. Don't follow too closely or try to go by them. If anything should happen that you would block the road so that the apparatus could not get there who would be to blame?

This last year we were fortunate as to bad fires and took advantage of that situation by purchasing 1000 feet of fire hose, 12 Knapsack sprayer pumps for use on forest fires and in buildings, and a supply of chemicals; also two roof or wall ladders.

The apparatus and equipment of the Department consists of one Combination Chemical and hose motor truck, one fire engine, hand pump, "Aquarius," one hook and ladder truck, hand drawn; three hose reels; 18 hand extinguishers; 2 hand force pumps; 50 pails; 2500 ft. of 2½ inch linen fire hose; 300 ft. chemical and garden hose; 60 shovels, 10 axes; 8 lanterns, one 50 ft. extension ladder; two 35 ft. extension ladders; one 22 ft., one 20 ft. extension ladder; also 175 ft. of wall or

roof ladders of different lengths; 2 large grab hooks with rope and chain; iron bars and hand hooks.

We are pleased to state at this time that we have just completed a job that has been on our mind for sometime, but for lack of tools we could not do it, and that is the standardizing of our fire hose couplings and hydrant threads.

Through the courtesy of the New Hampshire Fire Underwriters Association we got the loan of a set of thread cutting tools. We furnished the help and now our hose and hydrant threads are of the national standard size which have been adopted by 90 odd towns in the state to date.

As forest fire warden I have issued 69 permits to burn brush and rubbish. From the present outlook it looks as if the coming season would be bad for forest fires and it is up to the people to cut down the enormous loss of property from this source.

Carelessness is the cause of about all the fires that start and when you put out your smoke before you throw it away you will be helping a lot. Don't ask for permits in dry or windy weather.

Respectfully submitted,
TIMOTHY E. DRISCOLL, Chief

Report of Chief of Police

TO THE SELECTMEN OF PETERBOROUGH, N. H.:

Gentlemen: I hereby submit my report as Chief of Police from Feb. 1, 1927 to January 31, 1928:

REPORT OF THE SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL BOARD OF PETERBOROUGH, N. H.:

A survey, covering the past eight years, showing trends of certain policies of administration, has been presented to the School Board. The length of the report being 50 pages, it becomes necessary to take from it only a brief summary for the purpose of publishing.

Present supervision believes that the chief duty of administration is to return to Peterborough as large a repayment in terms of education for tax dollar expended as can possibly be made. The securing of greater returns from each dollar invested, rather than the investing of more money, is sound business.

To accomplish this result the Board is provided with such data as any business must have.

The data includes:

- a. The average per pupil cost of education throughout the state.
- b. The average per pupil cost in this town.
- c. The reasons for deviation, if there are deviations. In particular, Peterborough maintains its schools at a far less than average cost.
- d. The knowledge of how much education can be expected in each grade, using the country as a whole for basis.
- e. The knowledge of whether or not Peterborough schools meet this expectation.
- f. The knowledge of whether or not each child in the public schools is receiving the type of education for which he is fitted.

Recommendations are made in the above noted survey by which, it is believed, certain financial losses due to incomplete school years, and too high retardation, may be done away with permanently.

Attention is called to the fact that special classes are being used by which every child is aided in overcoming the particular troubles which he meets in his work.

Peterborough supervision has no place reserved for guesswork. Full and continuous survey of achievement is intended to give each child exactly what his needs require. Standard ratings of pupil achievement and grade accomplishment remove the personal equation from the measurement of the work done by the teaching staff.

The business man takes inventory, not by personal inspection and guess, but by actual notation of discovered items on some standard basis. The same procedure, applied to education, is now possible. The Board of Peterborough School District may exactly know where each grade is on a basis of county wide accomplishment.

It can know whether or not its policies are securing for the town as great an educational return as is possible for the money expended.

Per pupil cost accounting insures the tax payer against over-expenditure for the schools. It protects the children against faulty and inefficient education.

It tests and measures, rather than inspects and guesses.

Modern education and modern business methods have much in common.

They approach the problem of doing more with the same amount of expenditure. It is a matter of economy, or high production, of certainty of procedure.

The buildings in the town have been rated on standard basis, and a policy of continual repair is suggested. It is cheaper to make small repairs each year than to wait for a general overhauling. Certain minor changes, particularly in the matter of lighting of the rooms, are suggested.

It is recommended that minor repairs be held to the figure of \$25.00 per room per year. This is found to be ample, in general, throughout the state.

Continuous survey of the pupil achievement is a part and parcel of modern education. The increasing cost of education demands the highest return from expenditure. The Board may watch over the advance of pupils with equal interest in pupils and expenditure.

Not to observe standard ratings of achievement, not to assure one's self that as great educational return is made as can be, is to consider total expenditure only; without attention as to what the money has bought.

Physical education has been added to the school program. There is need for more playground space, particularly for the girls of the school system. Physical education without equipment or playground space is not able to accomplish its fullest possible return from money invested.

The salary schedule should be observed with the remembrance that the groups in the grades are large, and that there is a great spread from the best to the lowest abilities in each grade. Special classes or a full time roving teacher are as essential as supervisors of art, music or physical education.

Second only to health, comes the need for fitting the education to the individual. Not all children are dunces who fail to move along in regular step. Retarded children are expensive. The cost for adapting the education to their special needs is far less than for the time and effort spent in attempting impossibilities, with resultant high costs for re-teaching.

Mastery of each bit of information is more important than half-learning of wider scope.

The work done throughout the 12 grades in developing social consciousness and willingness to serve is an essential part of education. The various organizations are well guided.

The work done by the Red Cross Public Health Nurse, in her position as school nurse, excellently supports the program of Health Supervision following the Medical Inspection program adopted by the District in 1919. The co-operation of the School Physician, School Nurse and Supervisor of Physical Education is of great value.

Recommendations concerning the adjustments within the courses offered in the senior high school include such changes as are in accord with modern educational policy, allowing individual differences to be cared for, instead of insisting upon a milling of all children along certain former and outworn procedures. These were incorporated in the full survey report.

The headmaster should receive assistance to relieve him from the necessity of coaching all athletic teams. There should be greater insistence on plays and games for all children. Without assistance this cannot be cared for. The particular duty of the headmaster is pupil guidance, and much time is needed for this.

Ratings of all teachers should be by standardized methods to remove the personal equation. This leads to a feeling of stability on the part of such teachers as are able to prove their ability.

Salaries should reach a point of maximum sufficient to retain desired teachers at least five years following their admission to the school system at a minimum salary. The extremely low cost for this item, due to centralization, should be considered carefully. It is possible to be too economical in the important factor of actual teaching.

The medians of all grades are at the expectation for achievement. There is much need for special classes for those who are above as well as for those who are below what can be expected from their abilities.

Special talent should be developed. Those who learn with difficulty should receive special methods. The need for both types of individual assistance is apparent.

The appreciation of the benefits of close organization of all parts of the educational system is becoming apparent.

Many organizations have taken an active interest in the children of the schools and several individuals have given largely of their time or thought to interest the children in worthwhile endeavors. To these, a full measure of appreciation is given.

In view of the fact that a full survey and detailed report has been filed with the School Board, we courteously submit this summary of the major points and with it the thanks of the entire teaching staff for the courtesies and appreciative comments which have at any time been extended to us.

(Signed)

LAWTON CHASE

REPORT OF SCHOOL BOARD

The past year has been marked by some of the most notable changes in the history of our schools. The building of the new High School has brought about some radical changes in system and arrangement. Closing of three rural schools and transporting pupils from those schools to the centre building is another factor.

Separation of the six higher from the six lower grades has worked for the benefit of all concerned.

While closing the outside schools made it appear at first as though some of the grades were overcrowded the work of the year has proven to the satisfaction of your board that the move was a wise one.

The High School enrollment this year is the largest in the history of the town and next year promises to be still larger, but the new building can readily accommodate a much larger number than we now have without any semblance of crowding.

Last summer the center building was repaired and repainted inside so that it compares favorably with similar buildings in other towns. Steel ceilings have been installed in all the class rooms and each room was given a coat of paint on the side walls and ceilings; new lighting fixtures were installed in some of the rooms. The small room on the ground floor formerly used as a Laboratory was converted into a teachers' rest room. Metal weather strips have been put on outside doors and all windows on first and second floors.

The time is coming when new sanitary arrangements will be needed in this building but with the reduced number of pupils

from former years this work may be put off for a time without danger to the pupils. The school building at the West is in good condition except as to sanitary arrangements and if the District continues to use it a heating plant might be installed which would allow the use of modern sanitary fixtures now unavailable because of a certainty of freezing.

No business or organization can wholly succeed without co-operation. No one would think of employing labor without knowing in some measure the laborer. Yet how many parents know personally the teachers under whose care their children are placed every day? Only by meeting and knowing your teachers are you able to judge of their capabilities and their work.

Teachers come to us with all the enthusiasm of youth, with open minds and eager to succeed in their chosen work. Should we not aid them by welcoming them to our homes and making them feel that our interest goes beyond the class rooms?

The Parent-Teacher Association is doing good work up to a certain point but it cannot go far enough.

Peterborough is generous in support of its schools and it is the business of your school board to make every dollar earn one hundred per cent. Our per-pupil cost is not excessive. We are paying over \$8,000 per year on a new building. This is charged against the cost of the education of each boy and girl in our town, but like a piece of machinery the building is paying its way.

Economy is always desirable, but spending too little on education is worse than spending too much. We are entitled to the best to be had in education and we can have it without burden to our tax payers, if we will run our schools as we would our business.

GEORGE D. CUMMINGS

KARL B. MUSSER

JENNIE H. FIELD

School Board of Peterborough

SCHOOL DISTRICT OF THE TOWN OF
PETERBOROUGH, N. H.

FINANCIAL REPORT, JULY 1, 1926, TO JUNE 30, 1927

RECEIPTS

Balance on hand July 1, 1926	\$8 92	
Income from local taxation:		
Support of schools	39,206 00

School Board of Peterborough

REPORT OF HIGH SCHOOL BUILDING COMMITTEE

TO THE CITIZENS OF THE SCHOOL DISTRICT OF PETERBOROUGH:

Your committee, appointed for the purpose of building, furnishing and equipping a High School Building on a site selected by the voters of the district, have completed the work assigned to them and present the following report:

The School Board, having awarded the entire Bond issue to the Shawmut Corporation at 98.57, arranged with the First National Bank of Peterborough to prepare the Bonds. This the Bank did at the smallest possible expense.

The committee, after investigating the merits of several architects, awarded the commission to Brainerd and Leeds, of Boston, who have built school houses in various towns in New Hampshire, Vermont and Massachusetts.

Plans were made and bids received from a number of contractors, with a considerable variation in figures.

The contracts were awarded as follows: General Contract, R. F. Carll of Peterborough; heating and ventilating, Thomas E. Ward of Hanover, N. H.; plumbing, Clarence E. Stickney of Keene, N. H.; electrical work, Tucke and Parker of Lowell, Mass. In each case the contract was awarded to the lowest bidder.

R. F. Carll sublet the carpenter work to Stevens, Kemp & Hazen, and the painting to O. E. Farhm, all of Peterborough.

The corner stone was laid in July 1926 and the building completed early in the summer of 1927.

The main building is three stories high with a frontage on High street of eighty-eight feet and a depth, toward the east, of sixty-two and a half feet. On the northerly end is an extension, toward the east, fifty-four and a half feet by forty-three feet wide.

The buildings are of sand struck brick with artificial stone trimmings. The stairways are steel frame with cement treads, and corridors on the ground and first floors are concrete. The roof of the main building is of tar and gravel, with drains down through the building; the roof of the auditorium is asphalt shingles.

On the ground floor are offices for the Superintendent of Schools and Head Master, a public waiting room and a book and supply room; Domestic Arts Department, 37 feet 7 inches by 25 feet 4 inches; Manual Training Room, 34 feet 7 inches by 25 feet 10 inches; Lavatories and Showers for both boys and

girls. The first floor contains three rooms on the front of the building for the Junior High and at the rear a Commercial Department consisting of a large recitation room and a type-writer room. On this floor is the assembly room, 66 feet long by 43 feet wide, with a stage 14 feet deep. The second, or top floor, has three rooms on the front for the High School and a combination Physical and Chemical Laboratory at the rear. From this floor two galleries extend the entire length of the assembly hall, with stairs leading down to the stage, furnishing emergency exits from the entire top floor. Above the assembly hall, in the main building, are a teachers' rest room and a room which may be used as an infirmary and for school nurse headquarters.

The furnishings were selected with a view to practicability first. The offices contain the usual office equipment. In the Domestic Arts Department are the most up-to-date cooking and sewing tables; heat for cooking is furnished by a gas plant installed in the building. The Manual Training room is fitted with new benches and tools, which may be added to as need requires. Seats in the larger rooms on the first and second floors are fastened to the floor, while the recitation rooms are equipped with movable desks and chairs. The furniture in the Commercial room is of an approved and special pattern for the work in that department. The Laboratory is equipped with three four-seat benches and sinks fitted with hot and cold water, and a special bench for the instructor. This room is large enough for more equipment if needs demand. The Auditorium, at present, is equipped with two hundred folding chairs; more seats are needed in this room as is also stage scenery and settings. In the corridors on each floor are steel lockers, enough to accommodate 204 pupils; more will be needed later.

The plumbing is of a modern and substantial though inexpensive pattern; all concealed pipes are brass. Toilet rooms are provided for both boys and girls on the ground and second floors. Care has been taken to conserve a waste of water, the fixtures throughout the building being automatic or self-closing in each case.

Much care was given to the heating plant, which was laid out by one of the best heating engineers in Boston. Two boilers were installed so that fuel will not be wasted in the Spring and Fall, when one boiler will heat the entire building. Sufficient radiation has been placed in each room to properly heat it in any kind of weather, and ventilators are so arranged in all the rooms as to give satisfactory results. A large, high pressure, cast iron water tank is placed in the boiler room and

attached to the heating boilers, furnishing plenty of hot water for the showers and elsewhere about the building.

The electric lighting is amply sufficient to provide proper light in all rooms. A transformer room was placed beneath the auditorium and is kept locked and under the supervision of the local electric company.

A time clock is installed in the office of the Head Master and connected to a dial and bell in each room, all automatically controlled.

Two stand pipes with two lines of fire hose on each floor have been installed for fire protection.

The Board of Fire Underwriters have made a complete inspection and fixed an insurance rate of sixty cents per \$100, which on a three year term policy is reduced to fifty cents annually, a very satisfactory rate in the opinion of your committee.

The financial statement follows:

SCHOOL WARRANT

To the Inhabitants of the Town of Peterborough, Qualified to
Vote in District Affairs:

You are hereby notified to meet at the Town House in said District on Wednesday, the 7th day of March next, at 7:30 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose two Auditors for the ensuing year.
5. To choose a member of the School Board for the ensuing three years.
6. To hear the reports of agents, auditors, committees, or officers heretofore chosen.
7. To raise and appropriate such sums of money as may be necessary for school purposes to complete the school year 1927-1928.
8. To raise and appropriate such sums of money as may be necessary for school purposes for the school year 1928-1929.
9. To raise and appropriate such sums of money as may be necessary to make repairs on school houses or other school property for the school year 1928-1929.
10. To see what sum of money the District will raise and appropriate for Medical Inspection and Health Supervision in the schools for the school year 1928-1929.
11. To see what sum of money the District will raise and appropriate for salaries of school officers for the school year 1928-1929.
12. To raise and appropriate such sums of money as may be necessary for Insurance on school houses and other school property of the District for the school year 1928-1929.

13. To see what sum of money the District will raise and appropriate toward paying the School District debt and interest.

14. To see if the District will vote to sell the Wilson Corner school property or any part thereof and give a good and sufficient deed for the same, or take any other action relating thereto.

15. To see if the District will vote to sell the South school property or any part thereof and give a good and sufficient deed for the same, or take any other action relating thereto.

16. To see if the District will vote to sell the North school property or any part thereof and give a good and sufficient deed for the same, or take any other action relating thereto.

17. To see if the District will vote to sell or otherwise dispose of the Phoenix Mill Property or any part thereof, and give a good and sufficient deed of the same or take any other action relating thereto.

18. To choose agents and committees in relation to any subject embraced in this warrant.

Given under our hands this twentieth day of February, A. D. 1928.

JENNIE H. FIELD

School Board of Peterborough

REPORT OF HEALTH OFFICER

TO THE SELECTMEN AND CITIZENS OF PETERBOROUGH:

As Health Officer I would render to you the following report of my year's work:

One of the most important of my official duties is the collecting samples of our Town water and the inspection of public milk supply. Containers are sent to me, both for milk and water, and I collect samples of the same, and send them to the State Board of Health. And they are analyzed and a report sent to me, as to their purity. There has not been a case of typhoid traceable to our water supply for a good number of years, which shows the value of chlorination. I have recommended to the water commissioners, that a new and more modern chlorinator be installed with a more accessible plant for its housing. The importance and the care of our Town water supply cannot be too strongly brought to your attention. One epidemic would many times cost the price of the new installation with its protection. The milk supply of this town shows that our farmers are maintaining high class dairies and very little criticism has come back to me from the State laboratories of the samples I have collected and sent to them. Most of the herds are tested and good rich standard milk is sold in our town. I think the people are fast learning the value of a clean town to live in and are helping me in my work as health officer, especially when they get a clear understanding as to what is wanted. One criticism I make is of our present method of disposing of garbage and swill so-called. Many people now dump it into the river which is all wrong. It both contaminates the water of the river and makes a bad smell to the water and is unsightly to the passerby. I recommend for your consideration that some one whose duty it shall be to collect old papers, garbage, swill and such, be appointed by the town officials for this work and neater streets and rivers will be the result. With the co-operation of the Board of Education and Road Agent, I was able to fix the Phoenix dam in a manner that water now runs in the old canal and a much cleaner condition along that

part of the village exists. Several unsightly and disease breeding spots in our town have been cleaned up. No real epidemics of disease have visited our midst. A few cases of measles last winter, a very little whooping cough and a few cases of mumps, about twenty-five cases of scarlet fever, taken place this winter and with only one fatality; a record of which we may well be proud. It looks now well under control as no cases have appeared for five weeks and all families out of quarantine. The Health Officer in a country town is not a desirable job, but some one must take it and with the help and co-operation of all citizens a clean and healthy town will be the result.

Very respectfully,

CHARLES H. CUTLER, M. D.

Health Officer
